

TX2000 Hand Pallet Truck

Our TX2000 is one of the best quality pallet trucks on the market.

- Capacity 2000 Kg.
- Available in widths 455, 540 & 685 mm.
- A range of 3 widths, as well as lengths from 600 to 1150 mm means that there should always be a truck to suit your needs. (Other sizes available in our BF range)
- The extremely reliable pump unit is fitted with a pressure relief valve to prevent overloading.
- The robust chassis is reinforced at the 'A' frame and the legs are strengthened along their length. To reduce maintenance needs, all pivot points are bushed.
- With safety in mind, all machines can be fitted with 3 different braking systems.
- Trucks carry CE mark and comply with all current safety legislation.

Tandem load rollers are fitted as standard. All trucks can be supplied with single rollers on request
